## Electric Vacuum Generator - Schmalz ECBPMi

The CobotPump ECBPM is designed especially for the automated handling of small parts with a single vacuum cup. This lightweight and compact solution is typically used on collaborative robots with a lifting capacity of up to 3 kg ( 6.6 lbs ).

- Max. Payload: $6.6 \mathrm{lb}(3 \mathrm{~kg})$
- Fully electric, no need for compressed air.
- Energy saving control mode ensures efficient operation.
- Mechanical connection via flange adapter plate.
- Central electrical interface and simple control.
- Electrical connection via external cable routing or internal pin connection.
- Compatible with other robots. Contact EMI for more info.
- Has a female G1/4" thread. Reducer bushings available from EMI.
- Many alternative vacuum cups available, see page 119.

| Quick\# | Part\# | Price | Max Vacuum Level* | Max Suction Flow |  | Power Supply | Rated <br> Power | Wt. |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: |
|  |  |  |  | CFM | I/min |  |  |  |
| 8090 | ECBPM-UR | \$1,598.47 | 59\% | 1.8 CFM | $1.61 / \mathrm{min}$ | 24 V dc | 7.2 W | 230 g |

## ECBPM Vacuum Gripper Kit Includes:

- Cobot Pump with mounting interface.
- Vacuum cups with fittings: Ø20mm Flat \& Ø30mm 1.5 Bellow.
- Hardware
- USB Drive with robot plugin.

## Fu EOAT for Cohots - Vacuum Grippers

Electric Vacuum Generator - Schmalz ECBPMi
(Dimensioned drawings shown full scale)

Ideal for automated handling of small parts, such as pick-and-place applications with a single suction cup, as shown above.

Pair the CobotPump with a PIAB Soft Gripper (Quick\# 8070 shown above) for a plug-and-play solution built for tight spaces.
